	Examiner Thomas J. Williams	Art Unit 3657	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Acknowledgment is made in the receipt of the amendment filed January 15, 2009.

Drawings

2. The drawings are objected to because figures 10a-10d appear to reverse reference characters “84” and “86”, as per the specification the substantially vertical section is referenced as numeral 84 (see paragraph 49), and the lower horizontal section is referenced as numeral 86 (see paragraph 50). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 13 and 15 are objected to because of the following informalities: claim 13 line 37, the phrase “second section” should be changed to “first section”; claim 15 line 29, the phrase

Art Unit: 3657

“second section” should be changed to “first section”, since the second section 84 of the second limb is not separated from the connecting arm by a recess. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 13 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Re-claim 13 line 12, the first section 82 and the second section 84 are not parallel, as per the specification and figure 5. Note, figures 10 are in error. As such it appears the applicant intends to claim the first and third sections are parallel.

7. Re-claim 13 line 13, said third section extending perpendicular to the first and second sections is not found in the specification. It appears the applicant intends to claim the second section as extending perpendicular to the first and third sections, and thereby connect the first and third sections.

8. Re-claim 13 line 16, the specification discloses the first resilient portion attached to the third section, not the second section as claimed.

Claim 14 is rejected due to its dependence upon claim 13.

Allowable Subject Matter

9. Claims 1, 2, 4, 5 and 7-12 are allowed.

10. Claims 15 and 16 would be allowable if rewritten or amended to overcome the objections, set forth in this Office action.

Art Unit: 3657

11. Claims 13 and 14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

12. Applicant's arguments, see page 2, filed January 15, 2009, with respect to the notch separating the connecting arm from the first section of the first and second limb have been fully considered and are persuasive.

Conclusion

13. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

14. Any inquiries concerning this communication or earlier communications from the examiner should be directed to Thomas Williams whose telephone number is 571-272-7128. The examiner can normally be reached on Wednesday-Friday from 6:00 AM to 4:30 PM.

Art Unit: 3657
